

GARDENING FOR KIDS

BUILD YOUR OWN TERRARIUM

Make a miniature garden inside a glass container! Join professional gardener Ruth Hampton and build your own terrarium with the beautiful sedum flower. Learn all about taking care of your plants and watch them grow! After the class, each family will have their own terrarium to take home. For children in grades K-5.

DESIGN AND CREATE A CHILDREN'S GARDEN

It does not take much space to create a garden that will captivate the imagination of your child. Ruth Hampton, founder of Sprouts, LLC, will teach the basics of designing a children's garden including what types of plants are safe and interesting to children, what elements should be included in the design to encourage play and curiosity, and how to get children excited about taking care of their new garden.
